

## GUIDELINES to post a job on the RSM Career Portal

**Real and relevant:** We welcome vacancies that offer real and relevant career opportunities for our students; all vacancies should require an academic education.

**Checking:** We will check your vacancy description before it goes live. This ensures a consistently high quality for our students. The RSM Career Centre reserves the right to refuse or withhold vacancies.

**Language:** You can post vacancies in English, Dutch or German. Please state the working language for the position and remember to say what level of fluency is required. This helps to avoid the disappointment of candidates and employers being mismatched.

**Agencies:** We will allow specific job vacancies from recruitment agencies, but we will not permit general advertisements or 'signposting' to agency websites.
