

How to read campus buildings and room codes

Each building on campus is named after someone who has played a distinctive role in the development of our university.

Building names and room numbers

Room numbers start with:

Erasmus	A
University Library	B
Theil	C
Tinbergen	H
Bayle	J
Sanders	L
Van der Goot	M
Mandeville	T
Polak	POLAK

Example

Room C1-06 > Theil Building, first floor, room 06.

Buildings E, F, G, N, P, Q, V and W only have a building code, not a name.
