Palo Alto Networks – Fair & Speed Interviews

About Us
At Palo Alto Networks® everything starts and ends with our mission:

"Being the cybersecurity partner of choice, protecting our digital way of life."

We have the vision of a world where each day is safer and more secure than the one before.

These aren't easy goals to accomplish – but we're not here for easy. We're here for better. We are a company built on the foundation of challenging and disrupting the way things are done, and we're looking for innovators who are as committed to shaping the future of cybersecurity as we are.

We are the global cybersecurity leader, known for always challenging the security status quo. Our mission is to protect our way of life in the digital age by preventing successful cyberattacks. This has given us the privilege of safely enabling tens of thousands of organizations and their customers. Our pioneering Security Operating Platform emboldens their digital transformation with continuous innovation that seizes the latest breakthroughs in security, automation, and analytics. By delivering a true platform and empowering a growing ecosystem of change-makers like us, we provide highly effective and innovative cybersecurity across clouds, networks, and mobile devices.

What We Look For
To accomplish our mission, it means we have to look at our talent programs differently.

Our *Academy Graduate Program* is designed to develop future cybersecurity and sales professionals in an industry with a known talent shortage through developing key skills, hands-on training, and mentorship.

We offer three different tracks to develop your career, in three unique hiring verticals:
- Academy Sales Representative – 2 Year Track
- Academy System Engineers – 2 Year Track
- Academy Technical Support Engineer – 1 Year Track

When you start at the Palo Alto Networks Academy, you'll be joined by a group of recent technical and sales college graduates for a one to two-year immersion into cybersecurity, our products, and our customer base.

These roles are based in Amsterdam for the duration of the program with options to move globally upon graduation. Each track is uniquely designed to build your skillset, your network, and your career options.

Please, see below the requirements to apply to our EMEA University Program:

- Recent Graduates (up to 12 months post-graduation)
- Sales studying International Business, Business/Sales or related Discipline
- Presales/Tech Support-Computer Science, Cybersecurity or related discipline

- Study abroad/previous internships a distinct advantage
- Fluent in English

What We Offer
